# Freehold Borough Police Department

36 Jackson Street  
Freehold, New Jersey 07728

Craig W. Dispenza  
Chief of Police

Due to concerns with Covid-19 (Coronavirus) and in effort to maintain the highest level of public safety, the Freehold Borough Police Department has implemented temporary changes with our normal operations procedures. We ask that the public help us implement the following:

- If you or a household member are not feeling well, or are displaying signs of illness, please notify the dispatcher when you call for police service so responding officers will be properly prepared to enter your home if necessary.
- Officers may ask to speak with you outside of your home to collect information needed to document your incident. Please do not be offended if they ask you to step outside. Officers will attempt to adhere to social distancing recommendations by maintaining at least a 6-foot distance from everyone when feasible.
- For general service calls officers may not respond to your residence, but instead contact you by phone to take your report. Please be sure to provide a good contact number to the dispatcher when reporting your incident.
- Please do not come to the Police Department or Municipal Building unless it is absolutely necessary. If you need a copy of a police report, it can be faxed or emailed at no charge, by contacting the records department at (732) 462-1233.

These changes are being implemented to minimize and or eliminate as many unnecessary contacts as possible in order to protect the health of our community as well as our law enforcement and civilian staff throughout the Borough.

These changes only apply to Non-Life-Threatening calls for service. In an emergent situation we can assure you that the police will continue to provide a prompt response, with the same professional service as we have always provided.

We thank you for your understanding during this time and apologize for any inconvenience this may cause

Stay Healthy!  
Be Safe!

Chief Craig Dispenza
